## EXPERIENCE

### Freelance Content Writer

#### InfoSphere Channel

April 2023 - May 2023, Youtube Channel

• Simplified content writer for academic educational videos in physics, space sciences and astronomy

### Content Writer Volunteer

#### Youth Magazine (Science in a capsule)

March 2023 - May 2023, Monthly paper magazine

• I volunteered to write on the subject of earthquakes which was published in the second issue of the magazine Youth in the field of science in a capsule

• Which was done under the supervision of Dr. Ahmed Ibrahim, the doctor who works at the Queen's University in England

### Freelance Content Writer

#### Science With Spoon Channel

February 2023 - May 2023, Youtube Channel

• Simplified content writer for academic educational videos in physics, space sciences and astronomy

### CEO & Founder

#### قعدة فلكية

February 2023 - May 2023, WhatsApp group

• I have created a group and published it widely for those interested and students of astronomy, space, physics, cosmology, astrophysics, quantum mechanics and rocket science

• I make weekly online lectures with adding an illustration in the form of educational pictures on PowerPoint and I share and explain them and open a space for discussion at the end of the lecture that lasts for two hours

• The group is more than 600 people and I taught hundreds of students and those interested in these sciences by simplifying it for them and it was well received and popular from them

### Science Communicator Volunteer

#### Egyptian Society For Astronomy

June 2022 - May 2023

• Scientific essayist specialist in astrophysics, Content writer for educational videos, Scientific reviewer for content, Science communicator

### Climate Ambassador

#### Ain Shams University Faculty of Graduate Studies and Environmental Research

November 2022 - January 2023, EGYPT

• I registered and attended an educational training course for the tenth session on climate change at Ain Shams University. At the end of the course, after we learned a lot in the field of climate change and its economic, environmental and psychological impact and solutions, I made a project for education and awareness about climate change that targeted schools, universities and children.

---

## PROJECTS

### Science communicator

Seminar at Cairo University, Faculty of Science • March 2023 - March 2023

• I gave a simplified explanation in a seminar to more than 200 students about the Big Bang Theory, climate change, its negative consequences, and methods of solutions.

### Content Writer

Zewail City Behind The universe Competition • September 2022 - December 2022

• I participated with a team of 4 people in the Behind the Universe competition

• My role was to write a scientific article of up to 700 words on the subject of neutron stars, and after we qualified, we made a video that did not exceed three minutes and talked about the Big Bang Theory. It was written by me, but we did not qualify for the playoffs.

---

## EDUCATION

### Under graduation in Bachelor of Science

Minor in personal learning in Mathematics • Cairo University • Egypt, Giza • 2026

---

## COURSEWORK

### The tenth session on climate change, Ain Shams University

Online • 2022 • Teamwork ,Critical thinking, speed of problem solving, Science communicator

By providing online and offline awareness lectures on climate change
